5 Presale Phases | 900M Total Supply | Solana Token

Our Purpose

Building a transparent blockchain ecosystem for the future

Mission

Yo Gotti World's mission is to develop a transparent, community-focused blockchain ecosystem capable of exploring modern financial models. Through responsible development, strategic capital planning, and continuous innovation, the project seeks to create long-term value within the evolving digital economy.

KEY FOCUS AREAS

- Community-Focused Development
- Strategic Capital Planning
- Long-Term Value Creation

Vision

The vision of Yo Gotti World (GTTWRLD) is to establish a globally accessible ecosystem where blockchain technology enables transparent participation in financial concepts that traditionally existed only in institutional environments. The project aims to develop a sustainable platform driven by community engagement, responsible growth, and strategic planning.

CORE VALUES

- Global Accessibility
- Transparent Participation
- Sustainable Growth

How to Buy GTT

GTT is a Solana token. Follow these steps to buy during the active presale phase.

01 — Install a Solana Wallet
Install Phantom, Solflare, or another Solana-compatible wallet and securely save your recovery phrase.

02 — Fund with SOL or USDC
Deposit SOL for network fees and keep enough SOL or USDC ready for your GTT presale purchase.

03 — Open Presale Page
Go to the official presale page and verify the URL before connecting your wallet.

04 — Connect Solana Wallet
Click Connect Wallet and approve the connection request from your Solana wallet app.

05 — Buy GTT Tokens
Enter your amount, review the current presale phase price, and confirm the transaction to buy GTT.
