THE NEXT GEN SOLANA UTILITY TOKEN

Connecting the fragmented Solana ecosystem with automated liquidity flows and cross-protocol harmony.

Launch Dashboard View Chart

Our Mission

To provide the ultimate plumbing for the Solana DeFi stack, ensuring liquidity flows where it's needed most through autonomous smart-routing protocols.

Our Vision

A future where cross-chain liquidity is friction-free, and LinkFlow acts as the primary heartbeat of Solana's hyper-active financial network.

HOW TO JOIN THE FLOW

1. **Get a Wallet**
   Download Phantom or Solflare wallet from the app store or as a browser extension.
2. **Acquire $SOL**
   Purchase SOL on an exchange (Binance, Coinbase) and transfer it to your new wallet.
3. **Go to Jupiter**
   Connect your wallet to jup.ag (Jupiter Aggregator) for the best swap rates.
4. **Swap for $LF**
   Paste the Contract Address and swap your SOL for $LINKFLOW. Welcome to the flow!
